# Anshul Ghogre

## Full Stack Java/Javascript Web Developer

I am a skilled programmer with JavaScript, Java, Springboot, and Node.js. I possess strong leadership qualities and thrive in collaborative team environments. With a passion for technology and attention to detail, I deliver high-quality results. I am committed to continuous learning and eager to contribute to a dynamic organization.

## WORK EXPERIENCE

### Joint Proprietar

Sunshine Enterprises 01/2019 - 06/2022

#### Responsibilities/Tasks

- Led a team of construction workers, delegating tasks, providing guidance, and ensuring safe and timely completion of projects.
- Coordinated with architects, engineers, and other stakeholders to ensure successful project outcomes.

## PROJECTS

### Online Banking System (Role:Full Stack Developer(Lead)) 02/2023 - 03/2023

The online banking system, for bank customers and administrators, to manage customers bank accounts. It enables bank customers to conduct virtual bank transactions, view transactions, manage beneficiaries, etc.([GitHub Link](#))

- Front-end: Used **Reactjs**, **React Hooks**, **Context API**, **Axios**, and UI made with **Tailwind CSS**.
- Backend: Used **Java Spring Boot**, **JPA**, **JWT** and **MySQL** as database.

### MERN Auth+Todo List(Role:Full Stack Developer) 11/2022- 11/2022

Full Stack to-do list in **accordion** style for multiple users, with user authentication using **JWT**. ([LINK](#))

- Front-end: Used **Reactjs**, **React Hooks**, **Props** and UI made with **Tailwind CSS**
- Backend: Used **ExpressJs** framework for **Nodejs** and Used **MongoDB** as database.

### Expense Tracker (Role: Front-End Developer) 12/2022- 12/2022

I created an expense tracker or budget tracker with **ReactJs** to create this app, and used **Tailwind CSS** for UI and **hooks,custom hooks** and **Context API**.([LINK](#))

### UI Projects (Role:UI Developer) 08/2022- 09/2022

Made **18 UI Websites**(15 with classic CSS and 3 with Tailwind CSS) which all are available on **Github**. Some of the best UI Projects of mine are:

- Shopify UI Clone([LINK](#))
- Paytm UI Clone([LINK](#))
